

Selections from the Ocean Grove Children's Show production of Peter Pan

Mrs. Darling sings Wendy, John and Michael to sleep.

Come Dream Your Dreams

Come dream your dreams, lay down your head
There will be angels standing here beside your bed
Then drift away down through the night
Another day will come, my darling child

Another day will come to you
Your eyes will open wide
And if you wish to bring it sooner
Just close your eyes
It will be soon, I promise

“Are you sure?”
“I'm sure”

So dream your dreams, lay down your head
There will be angels standing here beside your bed
Then drift away down through the night
Another day will come, my darling child

So dream your dreams

Wendy tells Peter Pan why it's important to have a mother.

That's The Way A Mother Loves

Who picks you up when you trip and fall?
Who's right there when she hears you call?
Who wipes your eyes when your tears are slowly falling?
Who wakes you up when the morning's bright?
Who tucks you in when it's late at night?
(Peter) I don't know 'cause I never had a mother

That's what a mother does
That's how she shows her love
That's the way the world was meant to be
And every child in every land
Needs a gentle, loving, guiding hand
That's the way a Mother loves

Who held your hand when you learned to walk?
Who still remembers the day you talked?
Who read the stories you loved in early childhood?
Who tied the shoes on your little feet?
Who baked the cookies you love to eat?
(Peter) I don't know 'cause I never had a mother

That's what a mother does
That's how she shows her love
That's the way the world was meant to be
And every child in every land
Needs a gentle, loving, guiding hand
That's the way a Mother loves
That's the way a Mother loves

Peter Pan tells Wendy why everything is okay!

I Like Who I Am

I like who I am, I like who I'm gonna be
I like what I see from my head to my feet, plus all the rest of me
I like what I do, I like who I'm talking to
Very soon you'll see, most certainly, I like who I am

You know why 'cause there's Someone who made me
And He made me to be wonderful
He made me to be confident
He made me to be strong, and free forever
He made me to be me

I like who I am, I like where I'm going to
If you lost your smile come with me a while, and I'll start showing you
I got lots of soul, I got personality
It isn't hard to see, take a look at me, I like who I am

You know why 'cause there's Someone who made me
And He made me to be wonderful
He made me to be confident
He made me to be strong, and free forever
He made me to be me, He made me to be me...

I like who I am, I like who I'm gonna be
I like what I see from my head to my feet, plus all the rest of me
I like what I do, I like who I'm talking to
Very soon you'll see, most certainly, I like who I...
Sorry, I just can't help it - I like who I am!

The lost boys are looking for Peter, the pirates are chasing the lost boys, the Indians are tracking the pirates, and the animals are following the Indians. They are all going around in a circle on the island.

Around And Around

(Lost Boys)

Where are you, Peter Pan? We need you back again
We need your courage and daring and we need you now
Where are you Peter Pan? If you can hear us won't you
Please come out on the double 'cause - we need you now
Keep looking for, keep looking for, keep looking for Peter Pan
Keep looking for, keep looking for, keep looking for Peter Pan

(Pirates – following the lost boys)

Gonna catch you, gonna catch you, gonna catch those children now
They keep on disappearing and we don't know how
Gonna catch you, gonna catch you, and when we do we're gonna
Make you pay for all the trouble you've given us up till now
Gonna catch you, gonna catch you, you know for sure we're gonna catch you
Gonna catch you, gonna catch you, you know for sure we're gonna catch you

(Indians – following the pirates)

Pirates, pirates, gotta catch those pirates
Wait till they cross the clearing and they'll catch a shower of
Arrows, arrows, get your bows and arrows and we'll
Make them pay for all the trouble they've given us up till now
Pirates, pirates, gotta get those pirates
Pirates, pirates, gotta get those pirates

(Animals – following the Indians)

Owoooooo... ar ar
Owoooooo... ar, ar

(All three parts together)

Where are you, Peter Pan?
Gonna catch you, gonna catch you
Pirates, pirates
Owoooooo... Ar, Ar

The pirates have a philosophy all their own.

High Sea Robbery

We've made an obsession out of our profession
And we practice it twenty-four hours a day
We're out to get you and when we catch you
We'll take every bit of your treasure away

Oh, me mates, scan the sea
If there's a sail in sight, then report to me
Yo, ho... yo, ho
Cause we still got plenty of room in the hold
For very precious treasure like silver and gold
And it's just like robbing a floating bank
And the other crew will join us or walk – the plank!

We don't feel sorrow from the folks we borrow from
We're just doing business in the usual way
To get our profits up we'll make you cough it up
Hand over all that you owe us today

Oh, me mates, look what I see
A rich Spanish galleon sailing right at me
Yo, ho... yo, ho
Cause we still got plenty of room in the hold
For very precious treasure like silver and gold
And it's just like robbing a floating bank
And the other crew will join us or walk – you know what – Heh, heh!

Cause we've made an obsession out of our profession
And we practice it twenty-four hours a day
We're out to get you and when we catch you
We'll take every bit of your treasure away

Yo, ho... Yo, ho!

The lost boys sing as they build a house for Wendy.

Build A House

We're gonna build a house with teamwork
We're gonna make it tall and strong - Oh yeah!
This little house will be the best little house
And we'll be done before we're finished with our song

I got the hammer, I got the saw
I got the paintbrush, I got it all
I got the books to tell how much it cost 'em
I had the blueprints, but I think I lost 'em

“What? You lost the blueprints? What will we do now?”

We're gonna build a house with teamwork
We're gonna make it tall and strong - Oh yeah!
This little house will be the best little house
And we'll be done before we're finished with our song

I got the mortar, and the bricks are coming
I got the welding tools for all this plumbing
I got the fence posts, I got the rails
I got the hammer, but I forgot the nails

“What? You forgot the nails? What will we do now?”

We're gonna build a house with teamwork
We're gonna make it tall and strong - Oh yeah!
This little house will be the best little house
And we'll be done before we're finished with our song
Yes, we'll be done before we're finished with our...

“Wait! We forgot the doorknob. Bring it here quick!”

With our song!

Everyone rejoices after winning the battle.

Ride The Wind

We got a boat and we're gonna keep sailing
As long as the wind keeps blowing
Going to places we've never been
As long as the waves keep rolling in
We're gonna sail out on the sea
Cause we got a pirate ship for free
And we're gonna ride the wind in Never-Never Land
We're gonna ride the wind forever
We're gonna take her down every river
We're gonna scrub her down till every piece of her
Shines in the morning sun... shines in the morning sun... shines in the morning sun

(Peter sings theme from I Like Who I Am as the song continues...)

We got a boat and we're gonna keep sailing
As long as the wind keeps blowing
Going to places we've never been
As long as the waves keep rolling in
We're gonna sail out on the sea
Cause we got a pirate ship for free
And we're gonna ride the wind in Never-Never Land

We're gonna ride the wind, ride the wind in Never-Never Land
Ride the wind... ride the wind

These are some of the selections from the Ocean Grove Children's Show production of Peter Pan.
